SUBJECT

Gregory Alleges CIA Plan to Assassinate Reagan

PAUL HARVEY: Everybody has to have a boogeyman, somebody or some organization or some thing on which to blame everything.

With former comic Dick Gregory it's the CIA.

Today Gregory says the CIA engineered the Reagan victory by manipulating the Electoral College system and, he says, the CIA plans within six months to assassinate Reagan so that former CIA Director George Bush can take over the White House.

Now that would not be worth mentioning except that it will be and should be kept in perspective with recognition of the incredibility of the source.
